

From spectacular sounds to hi-tech effects

With one of the largest event production operations and widest inventories of presentation equipment in Queensland, more than 12 years venue experience and more than 10,000 events of all types since opening, there's no challenge that our experienced Audio Visual and Event Production team hasn't tackled.

To provide maximum support, a personal AV and IT Project Manager is assigned to each and every event. They make certain that clients are informed and involved from initial planning through to final execution. Event organisers also have onsite access to our entire team, allowing them to discuss their specific challenges and review their options at any time.

State-of-the-art-equipment

Whether you need computer networking for a business or scientific meeting, event production for a special banquet or gala dinner or theatrical effects for a big event, we have everything covered.

- Pre and post production facilities
- Audio, lighting, and audio visual design
- Specialist crew and operators
- Rigging throughout the building
- Extensive equipment hire
- Reliable access scalable from 128Kbps to over 90 Mbps
- Wireless networking
- Internet café
- 2,000 networking points throughout the Centre
- Computer and network hire with specialist IT support
- Gigabit fibre optic backbone to all areas

'Your AV setup is of the highest quality with the Speakers' Presentation Centre and networking of the Centre an incredible asset.'

Mortgage Choice Conference

everything's covered

No one's more attentive to the needs of speakers

Our dedicated and highly acclaimed Speakers' Presentation Centre is the first of its kind in Australia, setting new benchmarks for personalised service and support.

The Centre launched an innovative service for the management of speakers' presentations through the introduction of a permanent centre for visiting speakers and organisers. After all, confident speakers make better presentations!

The Centre offers a total solution covering the management of speakers presentations

- Delivery and transfer of speakers' submissions to the conference venue server
- Fully networked and equipped preparation rooms
- Private, soundproof rehearsal room
- Welcome reception lounge with plasma screen networked to plenary rooms
- Advice and onsite support from experienced AV professionals
- The latest presentation technology
