

Graphics & signage

From poster designs to corporate signs

We are one of the very few convention centres in Australia with a specialist in-house Graphics & Signage department. This enables us to provide clients with comprehensive promotional, display and exhibition material for absolutely every event.

From simple lectern signs and elaborate entrance feature displays to 17 metre banners and large format digital printing, sophisticated graphics and signage plus all the small presentation details that make an event stand out – everything's covered.

A high speed artwork transfer site enables our clients to access design and artwork files externally, so distance is no hindrance. Our resources and capabilities enable us to seamlessly handle external, non-event related projects.

Our range of services includes:

Graphic design

Wide format printing

Digitally printed PVC and fabric banners

Digital posters in A1, A0 and custom formats

Customised lectern signs

A4 and A3 colour printing

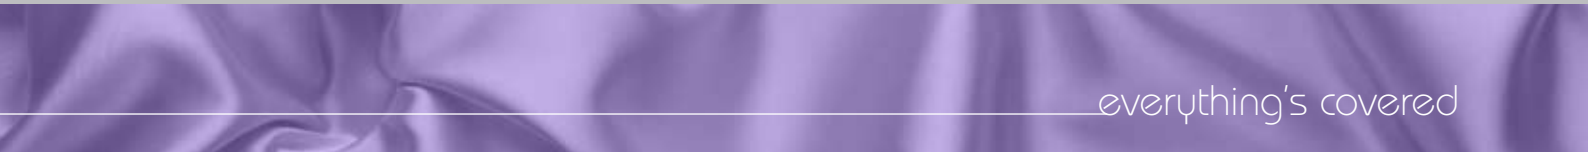

Event sign and branding project management

Promotional and signage systems

Display systems

'Staff were very responsive, organised, listened and catered to our needs'
Volkswagen Group Australia

everything's covered

From start to finish, we can manage it

As with all our departments in the Centre we pride ourselves on maintaining the highest standards of quality and service. However large or small the task, every print job undergoes a rigorous, three stage quality assurance process prior to delivery. In short we do everything possible to ensure that you always present your best.

And just to show you we have everything covered...

We're proud to have been doing everything we can to increase environmental efficiency in relation to our work. Initiatives have centred around reduce, reuse and recycle. By improving our own techniques and using advanced environmental friendly materials, we are able to offer clients a choice of environmentally friendly products and the option of recognised practices that help to reduce the carbon footprint of events.
